## **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

1. Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moore.

Regarding claim 1, note the grounds set forth in the Office Action mailed July 18, 2003. Furthermore, the determinations set forth in claim 1, such as, determining if the caller is the patient and determining if said chief complaint concerns hemorrhaging fall within the scope of standard medical diagnostic procedures and therefore, would have been obvious to one of ordinary skill in the art at the time the invention was made. Moreover, said patient having a chief complaint is a common circumstance and therefore, would have been equally obvious.

Regarding claims 2-8, the grounds of rejection have been maintained from the above referenced Office Action.

## Response to Arguments

2. Applicant argues in REMARKDS p. 5 that Moore describes a health care coordinator as opposed to a dispatcher as in the claimed invention. However, applicant may note that according to the invention of Moore, the appropriate assistance may be dispatched by the health care coordinator [see Moore col. 9, line 10]. Therefore, health care coordinator reads on dispatcher, and hence applicant's issue does not distinguish the claimed invention over prior art taught by Moore.

Ą

Additionally, applicant argues that the Moore reference fails to teach "taking the determination of the criticality from the health care provider" using a "formal programmed approach", and thereby, lacks the advantage of eliminating "variability due to the different skills of the individual dispatchers". In response to applicant's argument that Moore fails to show certain features of applicant's invention, it is noted that the features upon which applicant relies are not recited or represented in claim 1 as amended. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

3. THIS ACTION IS MADE FINAL. applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sadiki Mwanyoha whose telephone number is 703-305-3417. The examiner can normally be reached on 8:30-5:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad Matar can be reached on 703-305-4731. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-305-4750.
